WHAT IS GOING ON TCNIGHT Moving Pictures and Illustrated Songs

Vaudeville and Motion Pictures at Vaudeville and Motion Pictures at Broadway Theater.

> **ANNOUNCEMENTS** BROADWAY THEATER.

Yuletide is with us, and while it only comes once in tweive months why not celebrate by going to see Sheedy's superior vaudeville and superb motion pictures at the Broadway theater. An afternoon or evening spent here tones up your system for the entire week. Good singing such as dispensed by Ye Olde Home Choire and dainty Gladys Van will please you to the fullest extent. Good music with clean comedy as produced by Yacklay and Bunnell and sensational acrobatic work of the three Charbino Bros. form a pleasant amusement.

ctures and vaudeville will find anof pictures and vaudeville will find another brilliant array of entertainers headed by Franklyn Ardell & Co. in the comedy playlet "His Opponent the Suffragette," showing the funny side of politics. Princess Bonita, the horse with a human brain, will amuse by answering all questions asked by the audience. Good singing and dancing by Bert and Lottie Walton and the gatling gun comedians, Mackey and Walker, will form another strong vaudeville bill.

## THE AUDITORIUM.

The capacity houses at the Audito-rium on Monday afternoon and even-ing showed their appreciation for the different turns on the bill by their gen-erous applause. In the evening the Mosrelle sisters scored a big hit in their duet number, Whispering Hope. The illustrated song I Love You, Just You, sung by Miss Lillian Morrelle, with Miss Irene Morrelle coming in on the chorus, was also a very pleasing number. The funniest act on the bill, Just we lack presented by Parsons & number. The funniest act on the bill, Jack to Jack, presented by Parsons & Stewart, is a well written comedy sketch and well handled by these clever people. Musical Irving entertains with his playing on a great variety of instruments, culminating with the semisical balled, always a favorite, dbye, Sweetheart, Goodbye, which renders on a one-string violin of his he renders on a one-string yound of its own make with great dexterity. The baseball song introduced by the Aitken Brothers, two lively singers and danc-ers, is a sure bit. Their hard shoe dancing is clever and wins much de-served applause. Eliverton, the heavy-weight invalor presents a very novel weight juggler, presents a very novel act and something different from any-thing seen here this season. His torch-light finish is a winner. The motion pictures are as usual clear and steady and show very interesting subjects,

BREED THEATER.

The Indian, Powerful Feature Motion Picture.

The constantly increasing attendance at the Breed theater is a flattering compliment to the unerring judgment of Manager McNulty in securing only high class pictures and soloists for his theater. The tremendous audience present last evening was only one of the many repeatedly packed houses that have been delighted by the excellent entertainment afforded them at this theater, and last evening the powerful western story entitled The Indian was given through the medium of the motion pictures, and the thrilling moerful western story entitled The Indian was given through the medium of the motion pictures, and the thrilling moments, exciting climaxes, brilliant road, of which he was general counsel and excellent acting make this when the suit was begun. altogether different Indian story a

A splendid cowboy picture entitled Forced Into Marriage is also on the bill and as all the views are taken while the snow is on the ground this western picture becomes quite a nov-

Guilford has an opportunity of gaining one of the largest institutions in the state of Connecticut, namely, the new state reformatory, says the Shore Line Times. So favorably impressed were the com-

So favorably impressed were the com-missioners with the beautiful site on top of Chapboard Hill, the ample wa-ter supply, the opportunities by steam and electric railroads and water route that they at once secured the services of Capt, Charles Griswold of Guilford and J. Myron Hull of Madison to se-cure options on the properties desired. These gentlemen have been at work for nearly two weeks and have secured mearly two weeks and have secured options in writing on approximately 500 acres of land and are yet taking all they can secure. About 1,000 acres will be required.

Miss Lucy Young Engaged.

The engagement has been announced of Miss Lucy Young, daughter of Mr. and Mrs. Alden M. Young, of Pine Orchard, and New York, to Dr. George Milton Smith of New York city.

Miss Young is the third daughter of A. M. Young in the traction man. Another sister, Elizabeth, married last summer Rev. Herbert Gallaudet of Boston. Two other sisters are Mrs. Milton D. Warner of New York and Mrs. John H. Goss of Waterbury.

Dr. Smith is a graduate of Yale in the class of 1901. He afterward was graduated from the College of Playsicians and Surgeons in New York, and later received an appointment in the Presbyterian hospital, New York. His brother, Andre Smith, is a prominent young architect of New York. The engagement has been announced

BY WIRELESS,

Torrington Lads are Connecting Their Homes with the Equipment.

Harry Granger and Winthrop Ford, Torrington boys of 16 years, are at work on a wireless telegraphy system which they expect to be able to operate between their homes early in the year. They have been studying and working at it for over a year, making their own apparatus with upper connections to the top of poles on the roofs of their houses and grounding their wires by connection with the water-pipes. A few days ago they found they were able to secure a spark from one station to the other, and their problem now is to transmit it to the keybox.

TRAPPERS' PROFITS

The trapping season is at its height.

Of late a good deal has apeared in the newspapers relating to the rich revenue to be had in trapping the small animals of Connecticut for their hides, which have advanced in price in the past few years. Some of the stories are interesting, but not all of them accurate in presenting the profits in the fur business as it exists in the country towns in Litchfield county. There are a few old trappers hereabouts who make a business and profit during the winter months with their traps, but they are few. Most of the traps, but they are few. The latter term covers a multiture of conditions and it is a difficult matter to get what the dealers call a prime skin. A skin is prime if captured at this time of the year, but a puncture or improper treatment spoils its full value.

The colors are black, quarters, halfs and fulls. The trapper is very fortunate if he captures a black skunk. He seldom does, as the polecat family seem to have inherited a tendency to be white, much to the disgust of the trapper.

SUES ROAD FOR \$20,000,000.

State of Illinois Demands This Sum from the Illinois Central-Dickinson Acts for Railroad.

Acts for Railroad.

Attorney General Stead appeared before the judges of the supreme court at Springfield. Ill., in a suit to compel the Illinois Central railroad to account for seven per cent, of its gross receipts from charter lines through which the state of Illinois seeks to recover an tmount approximately estimated at \$20,000,000 from the railroad company. The case is basd on the grant in 1850 by the congress to the state of Illinois of 2.595,000 acres of land as a right of way to aid in the construction of a central railroad through the state. In 1851 the state chartered the Illinois Central and granted to it all the land received from congress, together with other property. The state claims these lands were sold by the read for \$30,000,000, which was more than sufficient to build the road. The charter granted to the railroad, the attorney general claimed, was an absolute contract by which the state was entitled to receive not less than seven per cent, of the gross receipts.

He made his fourth trip to New York last week with skins secured this season. The skins taken last week wers worth about \$400 and he took a similar shipment of about 400 skins

similar shipment of about 400 skins two weeks ago.

In the lot last taken there were 25 fox skins, 49 minks, 74 skunks, three coons, 55 muskrats and one otter. Mr. Miles trapped or shot nearly all the animals himself. He believes that this record cannot be beaten by any New England trapper this season.

SCHOLARSHIP HONORS

Won at Harvard by Meriden Student Eugene Saleski Reinhold of Meriden offered the state commission 400 acres of land for the institution as an inducement to have the building located there. It is understood that the Guilford site is most favored at this time. The state has appropriated \$400,000 for the purpose.

Fine Trapping.

This fall has been one of the best in the history of Canaan for the trappers, as all report good luck. Muskrats are very plentiful, and several hundred have been caught, and as the price of their fur is high this year, this effort to catch them will probably continue until the first of May when the hair begins to fall out. Mink have proved to be rather numerous, as three were caught in one week by two young boy trappers. H. L. Taylor in just one month caught over \$200 worth of furs in the vicinity of Canan. He devoted all his time to this work.

## SORE EYES CURED

Eye-Balls and Lids Became Terribly Inflamed - Was Unable to Go About - All Treatments Failed. **CUTICURA PROVED SUCCESSFUL** 

"About two years ago my eyes got in such a condition that I was unable to go about. They were terribly inflamed, both the balls and lids. I tried home remedies without relief. Then I decided to go to our family physician, but he didn't heip them. Then I tried two more of our most prominent physicians, but my eyes grew continually worse. At this time a friend of mine advised me to try Uniterral Ointment, and after using it about one week my eyes were considerably improved and in two weeks they were almost well. They have never given me any trouble since and I am now sixty-five years old. I shall never full to praise Cuticura. G. B. Halsey, Mouth of Wilson, Va., Apr. 4, 1908."

There are a few old trappers hereabouts who make a business and groft during the winter months with their traps but they are few. Most of the trapping is done by the boys on the farms who are led into the business by highly cultivated imaginations, the result of reading stories of old hunters and trappers and their adventures. None of the boy farmers ever reap any very large profits, as chores and a large dairy limit their trapping experiences and in many cases prevent them entirely from entering the business.

Most of the trapping hereabouts is for skunks, which are very numerous in the Litchfield county hills, where it is easy for them to burrow into the sandy loam on the hill sides. They are a menace to every chicken yard and farmers and poultrymen view with favor their capture and extermination. The value of a skunks jacket depends upon its color and whether it is "prime." So that one has to search before her face is found.
She manages to have her way as here-tofore,
And still possesses charms that thrill me to the core.
